

IN THE SPECIFICATION:

Please amend the paragraph beginning on page 19, line 21 and ending on page 20, line 8, as follows:

Although particular contours of the flange 35 and mating structures 22 are shown herein, other contours of anti-splay guide and advancement flanges 35 and mating structures 22 are foreseen. Examples of such alternative configurations of anti-splay or splay resisting guide and advancement flange and mating structures are disclosed in U.S. Patent application, Serial No. 10/236,123 which is now U.S. Patent No.           ,           ,           , 6,726,689 and which is incorporated herein by reference. The flange 35 and mating structures 22 cooperate to guide and advance the body 4 into clamping engagement with the rod 10 within the channel 20 in response to clockwise rotation of the body 4.
